## Summary

Full-Stack Software Developer & Computer Science graduate with a 9.53 CGPA. Proficient in JavaScript, TypeScript, React.js, Next.js, Node.js, and Express.js, and database modeling (PostgreSQL, MySQL, MongoDB) using Prisma ORM. Delivered 3 production-grade, publicly deployed applications.

## Technical Skills

**Languages:** JavaScript, TypeScript, Python, C++, Java, SQL

**Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Auth.js, Zustand, Redux, TailwindCSS, Motion, Zod

**Database & ORM:** MySQL, MongoDB, PostgreSQL, Prisma, Supabase, NeonDB

**Cloud & Tools:** Firebase, GCP, Git, GitHub, Vercel

## Projects

**Getic** | *Next.js 16, React 19, Prisma 7, PostgreSQL, TanStack Table, Zustand* Live Demo | GitHub

- Built a full-stack customer support ticketing platform with complete ticket lifecycle management, auto-generated sequential ticket IDs, an internal notes system with cascading deletes, and status-based filtering.
- Implemented a sortable, searchable data table using TanStack Table v9 and built a Zustand store with optimistic UI updates and automatic rollback on failed API requests, backed by a REST API layer validated with Zod.

**Imagen** | *Next.js, TypeScript, AuthJS, TailwindCSS, Prisma, NeonDB*

Live Demo

- Architected and developed a full-stack AI image generation platform using Next.js and TypeScript, implemented secure Google OAuth authentication via AuthJS and persistent user data storage on NeonDB (PostgreSQL).
- Designed a responsive, mobile-first UI with TailwindCSS and engineered the database schema and query layer using Prisma ORM, ensuring type-safe data access and efficient CRUD operations.
- Configured and deployed the application to production on Vercel, implementing environment variable management and CI/CD-ready build configuration for reliable, zero-downtime releases.

**CodeVit** | *Next.js, TypeScript, AceEditor, Zustand, Glot API*

Live Demo

- Built a multi-language online coding playground supporting C++, Java, Python, and JavaScript, integrated AceEditor for real-time syntax highlighting and an enhanced developer experience.
- Integrated the Glot API to enable remote code compilation and execution, returning live output to users and eliminating the need for local development environments.
- Implemented centralized global state management with Zustand to streamline data flow across components, and deployed the application to production on Vercel.

## Education

**Shri GPM Degree College of Science and Commerce**

Mumbai, India

*B.Sc. Computer Science – 9.53 CGPA (Perfect 10 in Sem 1 & 2, 9.9 in Sem 4)*

2022 – 2025

**Shri GPM Degree College of Science and Commerce**

Mumbai, India

*HSC – PCMB – 80.6%*

2020 – 2022

## Certifications

Programming in C++ – NpTel 

React – HackerRank 

Advanced Excel – MKCL 

C++ – Sololearn 

SQL – Sololearn 

Java – Sololearn 

## Achievements

Academic Excellence: **9.53 CGPA** with perfect **10 GPA** in Semester 1 & 2 and **9.9 GPA** in Semester 4

Led team to **1st place** in C++/OOP Quiz – Achieved perfect score answering all questions (Jul 2023)

Ranked **2nd out of 21** in Mental Ability Math Test – Analytical Problem-Solving Competition (Sep 2021)
